DETAILED ACTION

Examiner has acknowledged Applicant's amendment to claims 2-4, 6-14 and 16-18, to cancel claims 20-21 and newly added claims of 22-31 submitted on 05/13/2002.

Claims 1-19 and 22-31 will be examined for restriction purposes.

Upon further review, an election of species requirement for claims 1-19 and 22-31 is deemed necessary-as set forth below:

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: claims 1-19 and 22-31.

Art Unit: 1654

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Each of the recited, claimed GRAS flavor alcohols, polyphenol compounds and GRAS flavor acids are distinct species which do not share a special technical feature with each other.

For claims 1-19 and 22-31, applicant is required to elect:

a) only one specie of a GRAS flavor alcohol or a combination of GRAS flavor alcohols.

b) only one specie of a polyphenol compound or a combination of polyphenol compounds.

c) only one specie of a GRAS flavor acid or a combination of GRAS flavor acids.

Applicant is required to elect under PCT Rule 13.2, a single disclosed species for claims 1-19 and 22-31 from a-c above for prosecution on the merits to which the claims shall be restricted. If no generic claims is finally held to be allowable.

Accordingly, the search for each of the above inventions is not co-extensive particularly with regard to the literature. Further, the reference which would anticipate the invention of one group would not necessarily anticipate or even make obvious the other group.
